CITY OF GOLDSBORO
AGENDA MEMORANDUM
APRIL 2, 2018 COUNCIL MEETING

SUBJECT: Governor's Crime Commission Award and Budget Amendment

BACKGROUND: The North Carolina Governor's Crime Commission serves as the chief advisory body to the Governor and Secretary of the Department of Public Safety on crime and justice issues. Periodically, grants are awarded to law enforcement agencies to assist with equipment purchases. On March 11, 2018, the City of Goldsboro submitted an application to the NC Department of Crime Control and Public Safety – Division of Governor's Crime Commission for funding to assist with the purchase of body cameras for use by police officers.

DISCUSSION: The City was notified on March 22, 2018 that the grant was approved for the grant period of March 1, 2018 – June 30, 2018. Grant funds totaling \$178,276.43 are available. To comply with the program guidelines, the City is required to provide matching funds totaling \$89,138.21, which is a 50% cash match. Since the City's matching share cannot replace existing appropriations, a budget ordinance is required.

RECOMMENDATION: It is recommended that Council, by motion:

1. Adopt the attached resolution authorizing the City Manager and Project Manager to accept the Governor's Crime Commission grant.
2. Adopt the attached budget ordinance appropriating the matching allocation in the amount 89,138.21.

ORDINANCE NO. 2018-

AN ORDINANCE AMENDING THE BUDGET ORDINANCE FOR THE
CITY OF GOLDSBORO FOR THE 2017-2018 FISCAL YEAR

WHEREAS, the City of Goldsboro submitted an application to the N.C. Department of Crime Control and Public Safety – Division of Governor’s Crime Commission for funding to assist with the purchase of body cameras for use by police officers; and

WHEREAS, funds totaling \$178,276.43 are available to be transferred to the City of Goldsboro for this grant; and

WHEREAS, to comply with the program guidelines, the City is required to provide matching funds in the amount of \$89,138.21.

WHEREAS, since the funds were not appropriated in the operating budget for FY 2017-18, the City of Goldsboro needs to appropriate \$89,138.21 from the General Fund.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Goldsboro that the Budget Ordinance for the Fiscal Year 2017-2018 be amended by:

NC Governor's Crime Commission Body Camera Grant

Although the application process will be open until May 2018, awards are being made on a first-come, first serve basis. The body cameras must also be purchased prior to June 30, 2018. The GCC will not make any payments after that date.

Maximum request is \$100,000. Grant is a 50/50 match.

Intentions are to purchase up to 96 body cameras and related accessories (docking stations, chargers, trigger boxes for vehicles, etc.) as well as a primary and back-up server for storage.

The department previously purchased 35 body cameras in May 2017 through the 2016 JAG Grant. With the current cameras now being used, there are generally, on average, about 5 that are out of service for repairs. These additional cameras will allow the department to outfit all street officers and investigators with a body camera and allow for spares while others are being repaired.

First body cameras were purchased from Digital Ally. Those purchased through this grant, if approved, would be from GETAC.

Total amount requested is \$178,276.42. As part as of the 50/50 match requirement, the City would have to provide \$89,138.21.

The recurring annual fees would be approximately \$13,700.00 for maintenance. As part of the purchase, GETAC will replace all the cameras after two years. Following that, the department would be responsible for camera replacements, as needed.

These are monies from the State Appropriations Committee and are not part of any federal funds. Other grants utilizing federal funds are now on hold, and money is not being disbursed, due to pending litigation with Sanctuary Cities.

ITEM NO. F

CITY OF GOLDSBORO
AGENDA MEMORANDUM
APRIL 2, 2018 COUNCIL MEETING

SUBJECT: Authorizing Finance Director to Purchase from US Communities

BACKGROUND: US Communities serves as a municipal contracting agency. US Communities is one of the leading national purchasing programs that provide procurement resources to local and state governments.

DISCUSSION: The US Communities Governmental Purchasing Alliance has suppliers who have competitively bid their products and services and meets the FEMA bid requirements to make obtaining necessary equipment, materials and services easier for municipalities in emergencies. The NC League of Municipalities has endorsed US Communities and there are no costs or fees to participate. By authorizing the Finance Director to purchase from US Communities, it gives the City an alternative source in procuring equipment and supplies for services.

RECOMMENDATION: It is recommended that the Council authorize the Finance Director to register the City of Goldsboro with US Communities in order to utilize this agency's procurement contracts.

APRIL 2, 2018 COUNCIL MEETING

SUBJECT: Sale of Real Property, Tax ID #3529-24-9867, 1.7 Acres Central Heights Road as recorded in the Wayne County Registry.

BACKGROUND: On January 31, 2018, Barnew Media offered to pay the City of Goldsboro the sum of \$17,600 for the 1.7 Acres on Central Heights Road and made a bid deposit of \$880.00.

The City of Goldsboro and County of Wayne acquired this property in October 2016. At the March 20, 2018 meeting, the County Commissioners agreed to convey their share of this property to the City of Goldsboro with the stipulation that the City and County share equally the expenses.

DISCUSSION: Standard property will be offered for sale in accordance with the provisions of the G.S. 160A-266, provided however, the minimum sales price will be at least fifty percent (50%) of the property's tax value. The property's tax value is \$35,200. An advertisement appeared in the Goldsboro News-Argus on February 4, 2018. The ten (10) day upset bid period expired on February 14, 2018, with no counter-offers received after this bid.

The buyer will pay the attorney fees associated with transferring the deed. The City and County's portion from the sale of these properties would be \$8,800.00 each minus expenses.

RECOMMENDATION: By motion, accept the offer from Barnew Media in the amount of \$17,600 and authorize the Mayor and City Clerk to execute a deed on behalf of the City of Goldsboro and County of Wayne.

SUBJECT: Adoption of the 2017 Local Water Supply Plan

BACKGROUND: The State of North Carolina requires public water systems to submit a Local Water Supply Plan (LWSP) at least once every five years. After the State reviews the LWSP and verifies that it meets State criteria, it requires the elected officials for the water system to adopt the Plan.

In the past, the City Council has adopted five previous Local Water Supply Plans (1992, 1997, 2002, 2007, 2012). The State has recently completed its review of Goldsboro's 2017 Local Water Supply Plan and sent a letter on March 20, 2018 stating that the City's Plan meets the minimum criteria established in North Carolina General Statute 143-355 (I).

DISCUSSION: The NC Department of Environment Quality, Division of Water Resources Section requests that the City Council to adopt the 2017 Local Water Supply Plan by Resolution.

RECOMMENDATION: 1. It is recommended that the City Council approve the attached Resolution adopting the 2017 Local Water Supply Plan.

2. This Resolution will be in full force and effect from and after the 2nd day of April 2018.

Goldsboro's Projected Gallons Per Capita Per Day (GPCD) Over Time

The purpose of the above chart is to show a general indication of how the long-term per capita water demand changes over time. The per capita water demand may actually be different than indicated due to seasonal populations and the accuracy of data submitted. Water systems that have calculated long-term per capita water demand based on a methodology that produces different results may submit their information in the notes field.

Your long-term water demand is 40 gallons per capita per day. What demand management practices do you plan to implement to reduce the per capita water demand (i.e. conduct regular water audits, implement a plumbing retrofit program, employ practices such as rainwater harvesting or reclaimed water)? If these practices are covered elsewhere in your plan, indicate where the practices are discussed here.

Are there other demand management practices you will implement to reduce your future supply needs? The City will continue to provide water conservation materials to water customers. Water sales agreements of 3.7 MGD require surrounding groundwater districts to use their groundwater sources in higher demand periods. The water system will continue to work to reduce per capita usage by the implementation of an active water conservation public education program, a meter replacement program, and a leak detection program. The future per capita demands will be evaluated annually and additional measures will be implemented as needed to ensure that the per capita usage is being reduced.

What supplies other than the ones listed in future supplies are being considered to meet your future supply needs? By the end of 208, the Goldsboro Water Treatment Plant hopes to begin construction on their Sedimentation Basin Plate Settlers. After construction, two (2) million gallons per day (MGD) capacity will be added to the twelve (12) MGD Water Plant, bringing it to fourteen (14) MGD. Public education promoting the expanded use of reclaimed water could lead to the increase of reclaimed water customers. Developing increased reclaimed water customers will help to reduce drinking water demand.

How does the water system intend to implement the demand management and supply planning components above? Based on what is allowed under the North Carolina reclaimed water regulations, potential new customer groups will be identified. Part of the planning process to expand the use of reclaimed water is to evaluate the capital cost to provide reclaimed water to these potential new customers. If it is found to be cost effective, then active marketing to these customers can take place. Goldsboro will be seeking North Carolina Resiliency grant assistance to aid in funding some future water projects.

Additional Information

Has this system participated in regional water supply or water use planning? Yes, Yes, The City of Goldsboro has participated in the Wayne County Utilities Committee meetings to discuss current and potential future water and wastewater projects in the County and to prepare for future water needs. The City also works with the surrounding groundwater systems on future water projects which may include a new water plant.

What major water supply reports or studies were used for planning? City of Goldsboro Utilities Master Plan

Please describe any other needs or issues regarding your water supply sources, any water system deficiencies or needed improvements (storage, treatment, etc.) or your ability to meet present and future water needs. Include both quantity and quality considerations, as well as financial, technical, managerial, permitting, and compliance issues: Currently, the City of Goldsboro is participating with the U.S. Army Corps of Engineers in a Neuse River Restoration Project Feasibility Study. This study is to determine if it is possible to restore the Neuse River to pre-1940 conditions before the Corps constructed a cut-off canal and low head dam in a 7.1 mile oxbow of the Neuse River. This Corps project has had unintended adverse impacts; reducing fish passage and causing increased sedimentation in this section of the river which contains the City of Goldsboro drinking water intake structure. If the Corps is not able to restore the river in this 7.1 mile oxbow section of the river, then the City plans to relocate its water intake structure upstream of the cut-off canal.

§ 54.01 AUTHORITY.

Pursuant to G.S. Ch.160A, Art. 16, the city hereby creates a stormwater utility and establishes a schedule of stormwater utility service fees to fund a stormwater management program, and a structural and natural stormwater and drainage system.
(Ord. 2017-29, passed 6-5-17)

§ 54.02 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

BEST MANAGEMENT PRACTICE (BMP). Measures or practices used to reduce the amount of pollution entering surface waters. BMPs can be structural or non-structural and may take the form of a process, activity, physical structure or planning. Structural BMPs refer to physical structures that reduce the amount of pollution entering surface waters. Structural BMPs include structures such as detention/retention ponds, swales, rain gardens, infiltration basins, and rain barrels.

DEVELOPED PROPERTY. Real property that has been altered from its natural state by the addition and attachment of any improvements such as buildings, structures or other impervious area. For new construction, property shall be considered **DEVELOPED PROPERTY** upon final approval of site improvements by the city.

EQUIVALENT RESIDENTIAL UNIT (ERU). The total impervious area of a typical single-family residential property, which is determined as the median impervious area of a representative sample, as determined by the city, of all developed residential properties in the single-family residential category.

IMPERVIOUS SURFACE AREA. A surface that, because of its composition or compacted nature, impedes or prevents natural infiltration of water into the soil, including but not limited to, roofs, decks, driveways, patios, sidewalks, parking areas, tennis courts, streets, or compacted gravel surfaces.

NON-SINGLE FAMILY RESIDENTIAL PROPERTY. Developed property not defined as a single family residential property.

PROPERTY OWNER OF RECORD. The person identified as the owner by county tax records.

REVENUES. All fees, assessments or other income received by the stormwater utility, including but not limited to, amounts received from the investment or deposit of monies in any fund or account, and all amounts received as gifts or donations, and the proceeds from the sale of bonds to finance the stormwater management program, or any other type of funds derived from grants, fees or loans that by purpose or effect relate to stormwater management activities.

SINGLE-FAMILY RESIDENTIAL PROPERTY. Developed property that serves the primary purpose of providing a permanent dwelling unit, regardless of the zoning district in which it is located, for single-family detached units, and that may or may not have accessory uses related to the purpose of providing permanent dwelling facilities.

STORMWATER UTILITY SERVICE FEE. The monthly monetary amount charged each parcel of real property for the services provided by the stormwater utility system and program as set forth in the city schedule of rates and fees, a copy of which is located in the office of the City Clerk and is incorporated by reference herein.

(Ord. 2017-29, passed 6-5-17; Am. Ord. 2018-3, passed 1-22-18)

§ 54.03 STORMWATER MANAGEMENT UTILITY ESTABLISHED; ADMINISTRATION; POWERS AND DUTIES.

(A) The City Council hereby establishes a stormwater management utility to carry out the purposes, functions and responsibilities set forth in this section. The governing body of the stormwater management utility shall be the City Council. The City Manager shall administer the stormwater management utility through the Public Works Department or such other departments and divisions as the City Manager shall designate.

(B) The stormwater management utility shall have the following powers and duties, subject to available revenues, which powers and duties are not necessarily exclusive to the stormwater management utility.

(1) Stormwater management planning and preparation of comprehensive watershed master plans for stormwater management.

(2) Regular inspections and maintenance of public stormwater management facilities, and measures for the construction thereof, as well as regular inspections of private stormwater management facilities.

(3) Maintenance and improvement of stormwater management facilities that have been accepted by the city for purposes of stormwater management.

(4) Plan review and inspection of sediment control and stormwater management plans, measures and practices.

(5) Retrofitting designated watersheds to reduce existing flooding problems or to improve water quality.

(6) Acquisition of interests in land, including easements, upon prior approval by City Council,

(7) Design and construction of stormwater management facilities and measures, and acquisition of equipment.

(8) Water quantity and water quality management, including monitoring activities.

(9) Compliance with state and federal regulations for stormwater management, and submission of mandatory and non-mandatory reports related thereto, except for those regulations that require approval by City Council.

(10) Any and all powers and duties delegated or granted to it as a local government implementing agency under the laws and regulations of the state and the ordinances of the city.
(Ord. 2017-29, passed 6-5-17)

§ 54.04 BOUNDARIES AND JURISDICTION.

The boundaries and jurisdiction of the stormwater management utility shall extend to the corporate limits of the city, as they may exist from time to time, and such areas lying outside the corporate limits of the city as shall be approved by the City Council.
(Ord. 2017-29, passed 6-5-17)

§ 54.05 STORMWATER UTILITY SERVICE FEES, RATES AND FEE SCHEDULE.

(A) Stormwater utility service fees will be determined and modified from time to time by the City Council, so that the total revenues generated by these fees will be used to pay such expenses as are reasonably necessary or convenient in the management, administration, planning, regulatory compliance, public education, construction, operation, and maintenance of the stormwater system, and to pay principal of and interest on the debt incurred for stormwater purposes.

(B) The fee system must be reasonable and equitable so that users pay to the extent they contribute to the need for the stormwater management utility, and so that fees bear a substantial relationship to the cost of service. The City Council recognizes that these benefits, while substantial, in many cases cannot be measured directly.

(1) Stormwater utility service fees shall accrue on the date determined by City Council and set forth in the city schedule of rates and fees. Stormwater utility service fees shall apply to all land as presented in § 54.04, whether public or private. Exemptions shall not be allowed based on age, tax exemption, or other status of an individual or organization.

(2) Stormwater utility service fees shall be based on a commonly accepted rate unit for stormwater utilities, the equivalent residential unit (ERU). The ERU is used to relate a base rate fee charged to a single-family residential property to that charged to a non-single-family residential property. The city's ERU is 3,000 square feet of impervious surface area. The ERU is determined by analyzing digital photographs and, for verification purposes, performing field checks of a representative sample of single-family residences within the city limits.

(a) All single-family residential properties will be charged one ERU per month.

(b) All non single-family residential properties will be charged based on the number of ERUs on the property.

<i>Stormwater Utility Fee Rates</i>	
<i>Number of ERUs</i>	<i>Monthly Rate per ERU</i>
First 60	\$4.50
61st to 100th	\$3
101st to 150th	\$2
Above 150th	\$1

(Ord. 2017-29, passed 6-5-17; Am. Ord. 2018-3, passed 1-22-18)

§ 54.06 CREDITS.

(A) Stormwater utility fee credits will be made available to developed non-single family residential properties with structural BMPs that treat at least 100% of runoff from the parcel. Credit for either a 10% or up to a total of 20% reduction in the stormwater utility fee will be given, as long as the property meets the eligibility requirements and the BMP meets the appropriate treatment requirements and is being properly maintained. The credit percentage is applied after the complete stormwater bill is calculated.

(B) Credit eligibility, application, approval, and expiration criteria and procedures are documented in the stormwater utility fee policies.
(Am. Ord. 2018-3, passed 1-22-18)

§ 54.07 BILLING METHOD; RESPONSIBLE PARTIES.

(A) Bills for stormwater utility service fees shall be sent at regular, periodic intervals. Stormwater utility service fees may be billed on a combined utility bill that also contains fees for other utilities. Stormwater utility service fees that are shown on a combined utility bill may be for a different service period than that used for other utilities. For properties not having otherwise active utility accounts, the fee for only stormwater utility service accounts shall be billed to the owners or other persons listed on the real property tax records. These accounts may be billed at different intervals than the accounts receiving combined utility billings.

(B) As the general rule, stormwater utility bills for a property that receives other city-provided utilities shall be sent to the customer receiving such service. Billing for parcels or groups of adjacent and associated parcels with multiple utility accounts may be done as a separate bill to each account with the impervious area allocated among the accounts. Where this allocation results in an amount of impervious area allocable to a given account that is similar to that for a single family residential property, the account will be billed the same way as a single family residential property.

(C) Townhouse and condominium developments and other similar properties billed through individual utility accounts and not the property owner, but containing impervious surface greater than one ERU in common ownership areas, shall be charged a stormwater utility service fee for the total impervious surface of all commonly-owned property within the development. The stormwater utility bill for the commonly-owned areas shall be sent to the homeowners' association.

(D) Stormwater utility service fees shall be due and payable as set forth in the city schedule of rates and fees, a copy of which is located in the office of the City Clerk, and is incorporated by reference herein.
(Ord. 2017-29, passed 6-5-17; Am. Ord. 2018-3, passed 1-22-18)

§ 54.08 BACKBILLING.

Failure to receive a stormwater utility service fee bill is not justification for nonpayment. The owner of each parcel of land shall be ultimately obligated to pay such fee. If a customer is under-billed or if no bill is sent, the city may backbill for up to two years.
(Ord. 2017-29, passed 6-5-17)

§ 54.09 COMPLAINTS REGARDING A BILL.

(A) A customer having a grievance or complaint that a bill is excessive must file written notice with the city's finance office. If it is determined that the bill is in error, an adjustment will be made according to the schedule of rates and fees.

(B) No adjustment will be made for more than a three-year period.
(Ord. 2017-29, passed 6-5-17)

§ 54.10 APPEAL.

(A) For the purposes of the stormwater utility fee, any person who disagrees with any final determination of the Public Works Director in the administration of the fee with regards to classification of parcels, stormwater fees, application of credits, final administrative policies, or procedures, and other matters related to the administration of the stormwater utility have 30 days from the date of notification of such determination to apply for a hearing.

(B) All appeals of administrative determinations are to be heard by the City Manager.

(C) Appeals to the City Manager's determination constitute a quasi-judicial process and will be heard by the Board of Adjustment.
(Am. Ord. 2018-3, passed 1-22-18)

§ 54.11 USE OF REVENUE; INVESTMENT OF FUNDS; BORROWING.

Funds generated for the stormwater management utility from fees, bond issues, other borrowing and other sources shall be utilized only for those purposes for which the stormwater management utility has been established. Such funds shall be invested and reinvested pursuant to the same procedures and practices established by the city for investment and reinvestment of funds. The City Council may use any form of borrowing authorized by law to fund capital acquisitions or expenditures for the stormwater management utility.

AGENDA MEMORANDUM

APRIL 2, 2018 COUNCIL MEETING

SUBJECT: Z-4-18 E Park, LLC – South side of Graves Drive between Malloy Street and Berkeley Boulevard

BACKGROUND: The applicant requests a zoning change from Shopping Center to General Business.

Frontage: 100 ft.

Depth: 200 ft.

Area: 0.46 Acres

Surrounding Zoning: North: General Business
South: General Business CD
East: General Business
West: General Business

Existing Use: The property is currently vacant.

Proposed Use: A Conditional District has not been requested, therefore, no use for the property has to be specified. The General Business zoning district would permit a wide variety of commercial uses.

DISCUSSION: On March 5, 2018, Council approved a site plan for adjacent property to the east (former Century Uniforms) for a catering operation.

The developer requests the zoning change in order to allow for more marketability in attracting an investor. Depending on the use proposed and whether all UDO requirements can be met, review and approval of development plans for the site may be required.

At the public hearing held on March 19, 2018, no one appeared to speak either for or against this request.

The Planning Commission, at their meeting held on March 26, 2018, recommended approval of the zoning change.

RECOMMENDATION: By motion, accept the recommendation of the Planning Commission and adopt an Ordinance changing the zoning for the subject property from Shopping Center to General Business.

The General Business zoning district would be consistent with the recommendations contained within the adopted Comprehensive Land Use Plan which designates the subject property for commercial development.

APRIL 2, 2018 COUNCIL MEETING

SUBJECT:

Street Closings

1. Hemlock Street – From Ellis Street to Terminus
2. Marion Street – From William Street to Terminus
3. Odell Street – From Annabelle Street to Terminus

BACKGROUND:

On March 6, 2017, the City Council asked the staff to investigate closing a number of unimproved street sections within the City Limits.

The referenced street section has been identified on the attached maps indicating the length and right-of-way width of each.

DISCUSSION:

The petitioned street closings have been forwarded to the Fire, Police, Engineering and Public Works Departments for their review. No objections to any of the closings have been submitted.

The Engineering Department has indicated that utility easements should be retained over those sections of Marion Street and Hemlock Street if those rights-of-way are closed.

If the street sections are closed, ownership of each right-of-way would be split equally between the adjoining property owners.

The City would not physically close any of the rights-of way and would only withdraw the street sections from official maps.

At the public hearing held on March 19, 2018, one person appeared to question the effect the closing of Hemlock Street would have on the adjoining Dillard Academy with respect to bus access and maintenance of a nearby ditch. No one appeared to speak in favor of the request.

Staff has determined that the City will continue to maintain the ditch through a storm drainage easement, however, Dillard Academy has formally requested that the Hemlock Street right-of-way remain open to allow buses to enter and exit School property.

NCDOT has indicated that the curb cut on North William Street for Marion Street will be maintained in the future when street improvements are made to this section of William Street. Both adjacent owners would continue to have access to the rear of their properties through the closed right-of-way.

The Planning Commission, at their meeting held on March 26, 2018, recommended that Marion Street and Odell Street be closed with a utility easement being maintained over the entire Marion Street right-of-way. They further recommended that Hemlock Street remain open and not be closed.

RECOMMENDATION: By motion, accept the recommendation of the Planning Commission and adopt an Ordinance closing the Marion Street and Odell Street sections and maintaining a utility easement over the closed right-of-way for Marion Street. The Hemlock Street right-of-way would remain open.

CITY OF GOLDSBORO
AGENDA MEMORANDUM
APRIL 2, 2018 COUNCIL MEETING

SUBJECT: Z-2-18 MC Morgan & Associates – West side of Cuyler Best Road between Glenda's Drive and Oxford Boulevard

BACKGROUND: The applicant requests a zoning change from Office and Institutional-1 to R-6 Residential Conditional District to limit the use of the property to 80 apartment units.

The applicant has requested a waiver of the site plan requirement at time of rezoning. If the rezoning is approved, full development plans would have to be approved prior to issuance of any building permits.

Frontage: 300 ft.

Depth: 900 ft.

Area: 6.2 Acres

Surrounding Zoning: North: Office & Institutional-1
South: Office & Institutional-1
East: Office & Institutional-1
West: R-9 Residential

Existing Use: The property is currently vacant farmland.

DISCUSSION: Proposed Use: As indicated previously, the requested R-6 Conditional District is requested to limit the use of the property to 80 apartment units. Development plan approval would be required separately.

Land Use Plan Recommendation: The City's adopted Plan designates the property for Office and Institutional uses.

Engineering Comments: City water and sewer lines are not available to the subject property at this time.

Development plans for Cuyler Springs (an elderly apartment complex) was approved for property approximately 1,000 ft. to the south at the corner of Oxford Boulevard.

At the public hearing held on March 19, 2018, four people spoke in regards to the request and cited problems with traffic on Cuyler Best Road and their need for additional information regarding the proposal. A representative for the applicant appeared in favor.

The existing Office and Institutional-1 zoning district would permit multi-family residential development at the rate of the closest, most restrictive zoning district which is R-9 Residential to the south. Based on the size of the property (6.2 acres), a total of 57 multi-family units would be permitted on the site without rezoning the property. Since the developer has proposed a total of 80 units, the R-6 Residential zone has been requested.

The Planning Commission, at their meeting held on March 26, 2018, recommended approval of the zoning change with a waiver of the site plan requirement at time of rezoning.

RECOMMENDATION: By motion, accept the recommendation of the Planning Commission and:

Adopt an Ordinance approving the rezoning request from Office and Institutional-1 to R-6 Residential Conditional District to limit the use of the property to 80 apartment units with a waiver of site plan approval at time of rezoning. Full development plans will have to be approved prior to issuance of any building permits.

Although residential development is not specifically designated for the subject property within the adopted Comprehensive Land Use Plan, the existing O&I-1 zone would permit multi-family development and the requested

R-6 zone would allow for a transition between the existing R-9 zoning adjacent to the south and the adjacent Office and Institutional-1 zoning to the north.

CITY OF GOLDSBORO

AGENDA MEMORANDUM

APRIL 2, 2018 COUNCIL MEETING

SUBJECT: Z-3-18 Berkeley Realty Holdings – Northeast corner of Berkeley Boulevard and Langston Drive

BACKGROUND: The applicant requests a rezoning to allow the addition of a car wash operation as an allowable use within the General Business Conditional District zone.

On March 6, 2017, Council approved a rezoning for the subject property, along with two additional adjacent lots to the north, from O&I-1 and R-16 to General Business Conditional District. At that time, the use for the property allowed for the construction of a “multi-tenant commercial center” with separate approval required for development plans.

Conceptual plans were displayed at time of rezoning which included a multi-tenant commercial building on three lots with access from both Berkeley Boulevard and Langston Drive. Only the two southern lots are now included within this request.

Frontage: 200 ft. (Berkeley Boulevard)
185 ft. (Langston Drive)
Area: 0.85 acres

Surrounding Zoning: North: Shopping Center
South: R-16 Residential
East: GBCD and O&I-1 CD
West: O&I-1 CD

Existing Use: Both lots are occupied by existing houses.

Proposed Use: As indicated, the applicant requests the addition of a car wash as an allowable use for the property.

Land Use Plan Recommendation: The City's adopted Land Use Plan designates this property for commercial development.

DISCUSSION:

The submitted site plan indicates a proposed 3,500 sq. ft. building placed parallel to Berkeley Boulevard with full driveway access from Langston Drive. An exit-only driveway is proposed along Berkeley Boulevard and will require approval from NCDOT. Driveway permits must be obtained prior to construction.

Hours of operation are being proposed at Monday thru Sunday 8:00 a. m. to 8:00 p. m. with four employees expected to be associated with the proposed car wash. Vehicles will not be permitted to enter the property after the closing time of 8:00 p. m.

Water and sewer lines are available to serve the property from Langston Drive and the property is not located within a special flood hazard area. Grading and drainage plans are under review and are subject to staff approval prior to issuance of a building permit.

The proposed one-bay automated car wash requires a total of 1 space per 2 employees, plus an area capable of stacking 2 cars per bay. The site plan shows 6 parking spaces along with 19 spaces dedicated as vacuuming stations. Adequate stacking of cars is available as vehicles will access the site from Langston Drive and travel west along the rear of the property to funnel into two travel lanes before accessing the one bay car wash. The applicant is requesting a modification of the interconnectivity requirement due to proposed traffic circulation for the site.

The submitted landscape plan indicates a 10 ft. Type A buffer along the northern property line and will contain combinations of Oaks, Cherries, Privet and Hollies.

A 20 ft. Type C buffer is required along the eastern property line adjacent to residentially-developed property. A 6 ft. wood privacy fence is being proposed along with supplemental landscaping to allow the reduction of the opaque buffer by 50%. The landscaping will consist of combination of Oaks, Cherries, Privet and Hollies.

An 8 ft. wide street yard is proposed along Berkeley Boulevard and Langston Drive. Street Trees and Vehicular Surface Buffer Shrubs will be installed along Langston Drive and street trees along Berkeley Boulevard.

Vehicular Surface Area plantings will include Eastern Redbuds and Dwarf Yaupon Hollies. These plants are shown interspersed as interior plantings within end aisles.

Five ft. sidewalks have been shown along Berkeley Boulevard and Langston Drive. Staff is working with the applicant to ensure interior sidewalks are provided where necessary.

The proposed dumpster location will be screened as required by the Unified Development Ordinance with gates for proper access to dumpster. The applicant is requesting a modification for the dumpster to be located within the Type A 10 ft. wide landscape buffer.

A lighting plan has been submitted for review and meets the requirements of the Unified Development Ordinance.

Proposed building elevations have been submitted. The exterior of the structure will consist of glass panels and a combination of split-face masonry block and stacked stone.

At the public hearing held on March 19, 2018, no one appeared to speak either for or against the request.

The Planning Commission, at their meeting held on March 26, 2018, recommended approval of the rezoning to allow an amendment to permit the addition of a car wash operation as an allowable use within the General Business Conditional

District zone and the submitted development plans with the following modifications:

1. Modification of interconnectivity; and
2. Modification to allow the dumpster to be located within the Type A landscape buffer.

RECOMMENDATION: By motion, accept the recommendation of the Planning Commission and:

1. Adopt an Ordinance rezoning the property from General Business Conditional District to General Business Conditional District to permit a car wash operation as an allowable use within the General Business Conditional District zone.

The request would be consistent with the adopted Comprehensive Land Use Plan which designates the subject property for commercial development.

2. Approve the submitted site, landscape and building elevation plans with the following modifications:
 - a. Modification of interconnectivity; and
 - b. Modification to allow the dumpster to be located within the Type A landscape buffer.
